Supporting Material
• 1252CI Hitachi Enterprise Storage for Mainframe (5-day)

This test is primarily designed for Hitachi Vantara customers who use and administer Hitachi Enterprise block storage systems in mainframe environments. It is also available to Hitachi Vantara employees and partners. The test will validate that the successful candidate has knowledge of Enterprise storage provisioning for mainframe, and that they can manage local and remote replication technologies using Hitachi mainframe software. The test covers Virtual Storage Platform Enterprise, the mainframe versions of Hitachi ShadowImage, TrueCopy and Hitachi Universal Replicator, and the Business Continuity Manager and Storage Navigator management software.

Audience: Hitachi Vantara Customer, Partner, and Employee Mainframe Storage Administrators

Mainframe storage administrators should have knowledge of IBM z/OS and of storage systems management in mainframe environments. They are knowledgeable about disaster recovery and business continuity technologies and processes.
